

New Collegiate Series

High End Features with User-Friendly Functionality

We've Added The Best Original Hitachi Technology

Accentualizer and HDCR (High Dynamic Contrast Range) Image Optimizer

Accentualizer makes pictures more clear by enhancing shade, sharpness and gloss. The HDCR function corrects blurred images caused by bright lighting and creates an effect similar to increased contrast, resulting in clear images even in bright rooms. The new Image Optimizer function adjusts them Accentualizer and HDCR automatically to improve visibility as lamp brightness dims over time.

Seamless Design

Seamless design in connecting HDBaseT™ and Power Cable as one cable solution.

*For models with HDBaseT

With New Advanced System Features

Edge Blending & Warping

The Edge blending function achieves seamless projection of one image using multiple projectors. Warping makes projection possible on spherical surfaces and surfaces with corners, as well as conventional flat screens – perfect for digital signage applications!

HDMI-Out

When sharing content on multiple screens by multiple projectors, HDMI-Out is used to bring the content signal from one projector to another.
