Think Solutions

New Generation Full Digital Wi-Fi Wireless Conference System, Instantly Setup, leave more time for inspiring minds

- **VISSONIC CLEACON, make wireless come true**

The major pain point on traditional meeting room is to connect all devices by cable, which is complex and wasting of time. VISSONIC Wireless conference system, start the meeting in anytime, anywhere, increase the efficiency on planning.

- **Standard Wi-Fi technology to co-work perfectly with existing networks**

CLEACON wireless unit, choose the frequency point from dozens of available ones on our access point, working in zero interference with all other networks in the area.

- **Amazing arc-shaped surface design**

Arc-shaped glass operation area is dust/water-proof, and there is no noise/damage risk compare with common physical buttons, anti-scratch cover technology, it remains smooth glass surface even after thousands times of touch.

The system is aiming to increase productivity during the meeting course, it pass crystal clear voice to all participants, any first-time users can use it without training

330mm Gooseneck Mic

Access point

Wi-Fi Wireless System Advantages

Unique Features:

- Standard Wi-Fi technology, while zero interference from other network
- MAX 6 Channel translation language selector
- Voting support in 3-key, 5-key mode
- User-friendly graphical icon buttons
- Full charged battery can last 24 hours for meeting usage, with battery life/Wi-Fi signal indicator
- Time/Date display on OLED screen
- RFID sign in
- Other audio source from cellphone/laptop can input to wireless unit directly
- Any delegate unit can be set as VIP, who will speech freely
- All signals within the Wireless Conference System are encrypted with WPA2 to achieve high-level security

Wi-Fi Wireless Discussion Units

CLEACON Chairman/Delegate Units

Technology-Hiding under glass but outstanding

This new system is perfect for applications in multi-purpose rooms and historical buildings where a flexible wireless solution offers significant advantages

Scratch-resistant arc-shaped back-lit glass control panel is unique in design. Specially developed access point offers interference-free conferencing co-working with other network.

Small and exquisite but powerful, that's what we deliver to you

Precise directional microphone head with slim design

Anti-wind microphone foam cover deliver excellent intelligibility

Strong audio collection ability to work with different length of microphone

Two color LED ring indicator, for speaking or apply in queue status

Timer for participants control his speech time, channel selector for interpretation, Wi-Fi signal/battery indicator in graphic

Elegant stainless steel cover with high fidelity internal loudspeaker

Stylish acyclic glass for operation area, a simple slight touch will active MIC (in red) or other standby feature (in white), no noise will caused in any important meeting. Dust-proof for easy clean and super robust than traditional physical buttons.

5GHz Connection Point

5Ghz Wi-Fi access point to avoid any interference

Work 7x24 Hours

Enterprise-class wireless AP, you can view the signal strength of each linked WIFI unit

Wide and less interference, can reach a radius of 30 meters, generally a radius of 25 meters, connect 50 pcs wireless units

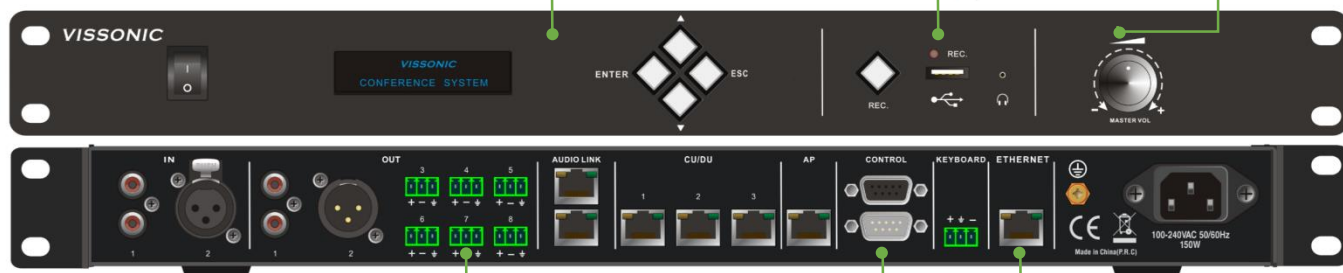

Wireless Central Control Unit

VIS-DCP2000-W Central Control

The unique AUDIO-LINK digital ring network technology achieve full-digital signal transmission and processing

USB recording

Master volume control

Sound output by separated zones, each zone is automatically adjusted according to the volume of the position of the microphone

Automatic camera tracking control For computer connection or network switcher

Versatile conference management center

1U compact size but gets a lot features for you. It not only provide power to all the chairman/delegate units, even it manage any requests for a meeting like adjust sound of each unit, AGC(Automatic Gain Control)/AFC(Adaptive Feedback Cancellation)/ANC(Active Noise Control)/Mix (Auto-Mix) technology is processed silently inside.

Simple control with convenient recording

We try to use less buttons to streamline the operation, and LCD screen helps you monitor real-time action obviously. The USB slot enable it record every important meeting discussion, to file up every contents simply.

The controller support wired/wireless units to connect and work together at the same time

Small and exquisite design won't occupy much of your space, the sound pick-up area is wide enough to put it at a comfortable distance for you

The Best Features We Offer

VIS-WDC-T Discussion Chairman unit

VIS-WVD-T Discussion+voting+interpretation
Chairman unit

- Stylish, low profile design with touchable interface
- Wireless communication, setting up all system in few minutes to be ready for using, and put them away in short time as well
- Detachable battery pack is easy to replace and charge
- Built-in DC connector for power supply without battery
- Internal high fidelity loudspeaker
- built-in up 8 channels interpretation
- Head-set interface in both sides with volume adjust
- Line-in interface which allows microphone or other line-in device like cell phone, laptop to pass audio through to perform teleconference
- Full-digital signal transmission and processing, completely avoid the RF interference from cell phone or similar devices.
- Support pluggable microphone and different length of microphone with strong audio collecting ability.
- Timer on display to set certain time for each delegate to speak, will remind user or close the MIC automatically
- All units can be configured as Chairman or Delegate unit through software settings based on model WVC-T.

Applications

Small, medium size meeting room

Large Conference hall, where voting is needed, equipped with camera auto-tracking system

International conference with wired/wireless translation system for multi-languages

We are dedicated in developing conference system with cutting-edge technology, while the product in your hand is modern and user-friendly.

Think solutions to provide ideal products for industrial and commercial occasions is our permanent goal
