

Yealink VC Camera Extension Adapter VCA70

Yealink VC Camera Extension Adapter VCA70 offers a cost-effective solution for meeting room which can extend the distance between the codec and the camera for up to 70 meters. You can complete the deployment with only two DVI cables and one network cable and without any additional power. For easy and concise deployment, it can also be deployed on the "network switch panel" or "the line pipe" as your own needs.

Key Features and Benefits

- Simple deployment
- Easy extensibility
- No additional power needed

Simple
Deployment

Easy
Extensibility

No additional
Power needed
